Network and Internet Services

Standard Wireless Networking

Outfit your PC or Mac for wireless network connectivity with this standard wireless networking service. We will set up and configure your home computer's wireless network connection with your ISP, connect a wireless router, update router firmware and enable wireless encryption, so you can surf the Web with wireless freedom and peace of mind.

- \$105.00

Advanced Wireless Networking

Enjoy wireless freedom when you set up wireless network connectivity for your PC or Mac and computer peripherals with this advanced wireless networking service. We will set up and configure your home computer's wireless router and network connection with your ISP, enable wireless encryption, troubleshoot connectivity issues and network up to 2 computers or devices.

- \$169.99

Premium Wireless Networking

Equip your PC or Mac, computer peripherals and other compatible devices with wireless network connectivity with this premium wireless networking service. We will set up and configure your home computer's wireless router and network connection with your ISP, enable wireless encryption, troubleshoot connectivity issues and network 6 to 8 computers or devices.

- \$249.99

Add Device to Existing Network

Add a compatible electronic device to your wired or wireless network with this electronic device setup service for Mac or PC. We will install 1 electronic device, such as a Mac, PC, access point, print server, wireless range extender, game console, TiVO or Slingbox, on your home network.

- \$129.99

ISP / Network Troubleshooting

Reinstate a crashed network connection to normal using this network troubleshooting and repair service for PC and Mac. We will determine the reason for improper network functioning, troubleshoot and repair your network connection and ensure your networked peripherals are properly reconnected.

- \$105.00

Standard Windows Home Server Setup

Provide wireless network connectivity for up to 3 compatible computers and allow easy access to networked digital content with this standard Windows Home Server service for PC. We will set up and configure your home computer's wireless network connection with your ISP and network your Windows Home Server device, so you can surf the Web wirelessly and access music, digital photos, videos and important data with ease.

- \$199.99

Advanced Windows Home Server Setup

Receive the benefits of a standard wireless setup with this advanced Windows Home Server service, which offers daily backup of your home PC, simple recovery of lost files and sharing of media. We will organize a central hub that is accessible from up to 5 computers, so that you can use and access files from your home server.

- \$399.99

Premium Windows Home Server Setup

Equip up to 10 PCs with wireless network connectivity and allow easy access to networked digital content with this premium Windows Home Server service for PC. We will set up and configure your home computer's wireless network connection with your ISP and network your Windows Home Server device, so you can surf the Web and access stored music, movies, digital photos and other important data remotely with ease
